

PAID THE PENALTY.

Murderer Patrick Fitzpatrick is Hanged at Pittsburgh.

A MURDER CAUSED BY LIQUOR

And the Condemned Man's Parting Words Were that People of Nervous Temperament Should Never Drink. Story of the Crime—The Execution Conducted Quietly.

PITTSBURGH, Pa., May 24.—Patrick Fitzpatrick, the murderer of Samuel Early, expired his crime on the scaffold in the county jail yard this morning. The trap was sprung at 11:05 a. m., and in fifteen minutes life was pronounced extinct. Death resulted from strangulation.

The condemned spent his last night on earth without much incident. At 11:40 he retired and slept soundly until 3:20 this morning, when he arose and knelt down and prayed for an hour. At 6 o'clock Father Griffin appeared and remained with him until the hour of the execution. Fitzpatrick said there was nothing he could say that would help his case. The murder was caused by liquor. He was satisfied that a man of his nervous temperament should never drink. When the hour arrived for the execution the condemned walked firmly to the scaffold and mounted it without assistance. Before the cap was placed over his head he made these parting words and said he was ready to meet his fate. Two minutes later the noose was adjusted about his neck and he was launched into eternity.

The execution was witnessed by only thirty persons, including the physicians, jury and reporters. Outside the jail about 200 people gathered, but they were soon dispersed by the police.

There was no excitement. The details of the execution were so well planned that there was not a single mishap.

The crime for which Fitzpatrick was executed was the killing of Samuel Early, a steel roller, on the night of September 2, 1891.

The murderer was for many years a tramp, but worked at odd times as a laborer. On the night of the murder he met his victim, Samuel Early, in the Phoenix hotel barroom, No. 51 Eleventh street, and they had several drinks together.

About 10:30 a quarrel arose between the men about some trivial matter and ended in Early knocking Fitzpatrick down. John Payne, the bar-tender, put Fitzpatrick out and told Early to follow. As Early pushed one of the swinging doors open, Fitzpatrick, who was on the outside, stabbed Early in the groin. The injured man staggered back and said to Payne, "look here." He fell down and in three minutes he was dead.

The murderer was arrested immediately and at the fall term of court was tried, convicted of murder in the first degree and condemned to death. The governor appointed March 25 as the day for his execution, but the pardon board granted a respite for sixty days and afterwards refused to interfere further. Fitzpatrick was thirty-nine years of age and single.

A Bad Record.
PITTSBURGH, Pa., May 24.—The execution of Fitzpatrick to-day was the first in Allegheny county since 1884.

During that time there have been over 200 homicides, the records showing 136 for the past five years.

THIS BEATS THE RECORD.
A Man Commits a Murder and Then Assists Another Man to do the Lynching.

BASTROP, La., May 24.—An extraordinary murder and lynching occurred here yesterday. One man committed the murder, and one man did the lynching with the assistance of the murderer.

Schlabach Brigham, manager for Col. George C. Phillips, who owns a plantation on Island de Stars, while in the field, was shot dead from ambush by an old negro.

The negro then walked to the plantation residence, summoned Colonel Phillips and told him that he had killed Brigham and wanted to be hanged for it. Colonel Phillips put a rope around the negro's neck and the negro was soon swinging from the limb of a tree. No motive is assigned for the murder, and it is thought the negro was insane.

Tortured Into Confessing.
JACKSONVILLE, Fla., May 24.—Information has just come from Sanford that one of the highwaymen who murdered Express Messenger Saunders has been captured and has confessed his guilt after being tortured with twisters and hot coils. The man boarded a freight train and rode to Orlando and was there arrested. There are five men in Orlando and four in Sanford under arrest but only two seem to be seriously injured.

A Little Girl's Experience in a Lighthouse.
Mr. and Mrs. Loren Trecoart are keepers of the government lighthouse at Sand Beach, Mich., and are blessed with a daughter, four years old. Last April she was taken down with measles, followed with a dreadful cough and turning into a fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones." Then she tried Dr. King's New Discovery, and after the use of two and a half bottles was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at Logan Drug Co.'s drug store.

Additional Trains Between Wheeling and Moundsville.
The Baltimore & Ohio railroad company has greatly improved the train service between Wheeling and Moundsville by the addition of three trains, daily, except Sunday, which were inaugurated with the new summer schedule on Sunday, May 22. By this addition there are now four trains daily, except Sunday, between Wheeling and Moundsville. They are as follows: Leave Wheeling at 7:00, 11:40, a. m., 6:10 and 10:45 p. m.; Leave Moundsville 6:00, 7:05, 7:55 and 12:30 p. m. The train which heretofore left Wheeling at 6:00 a. m., will hereafter leave at 6:10 a. m., and will run only to Moundsville and not to Cameron as heretofore. The change in time of the Grafton morning local will prove of great convenience to the residents of Cameron and other towns along the line.

"EVERY WORD TRUE!"

He Reiterates His Statements, Produces Additional Proof and Clearly Defines His Position.

New York Sun.

It would be difficult to measure the interest and comment, not to say excitement, which the published letter of Dr. R. A. Gunn, which appeared in the papers yesterday, has occasioned. The prominence of the doctor and the unusual nature of the latter have both tended to add interest to the subject and make it really the talk of the town.

I called upon Dr. Gunn at his residence, No. 124 West Forty-seventh street, yesterday afternoon. I found the reception room crowded, and it was only after an hour's waiting that I succeeded in obtaining an interview.

Dr. Gunn is a distinguished-looking man, and impressed me at once by his manly bearing and air of sincerity. I took the seat he courteously offered me, and said:

"Are you aware, doctor, of the commotion your letter has caused?"

Dr. Gunn smiled, and replied: "Things out of the ordinary usually cause comment. It is not a common thing for physicians to endorse and cordially recommend medicines other than those in the *Materia Medica*. History is full of instances of scientists who have endorsed discoveries they believe to be valuable, and have been denounced for so doing, and yet these same discoveries are blessing the world to-day. I hope I have the manhood and courage to be true to my convictions, and this is why I so openly and unhesitatingly endorse Warner's Safe Cure as being the greatest of modern discoveries for the cure of diseases which have baffled the highest skill of the medical profession."

I was impressed with the earnestness of the doctor, and saw that he meant every word that he said.

"How long have you known of this remedy, doctor?" I asked.

"Nearly ten years," he replied. My attention was originally called to the Safe Cure by a serious case of Bright's disease, which was considered hopeless, and yet, much to my surprise, under its use the patient recovered. I have tried it in other cases since then constantly, and my original faith in its power has been confirmed. I have seen patients recover from inflammation of the bladder, gravel and Bright's disease when all other treatment had failed, and I have found it especially efficient in all female troubles."

"Can you specify any particular cases, doctor?" I asked.

"That is a delicate thing to do," the doctor replied; "but, as I always keep a written record of my cases, I can accommodate you."

Thereupon the doctor opened his desk and produced his record book. Turning over the leaves he said:

"Here is a case of a gentleman who was a great sufferer from inflammation of the bladder of long standing. He had consulted a number of physicians without benefit. When first consulted I myself tried the usual methods of treatment, but without success, and I finally advised him to try Warner's Safe Cure. He felt better from the start, and in a few weeks was entirely cured."

The doctor turned a few pages further, and then said:

"Here is another case. It is that of a gentleman who had frequent attacks of renal calculi, which, as you know, is gravel forming in the kidneys. He had never been able to prevent these formations, but after an unusually severe attack I recommended him to try the Safe Cure, which he did, and although it is three years since he took the remedy, he has never had an attack since."

The doctor continued to turn the leaves of his book, and suddenly exclaimed:

"Here is a most remarkable case. It is that of a lady who had suffered for some time from Bright's disease. She became *enclente*, and about the fourth month suddenly became blind, had convulsions and finally fell into a state of coma, caused by uremic or kidney poison. Several physicians who saw her said she could not live, and in this view I fully concurred. As she could still swallow I said, as a last resort, that they might try Warner's Safe Cure. They did so, and to the surprise of every one she recovered. She has since given birth to a living child, and is perfectly well."

"Those are certainly most wonderful cases, doctor," I said, "and while I do not for a moment question their authenticity I would consider it a great favor if you would give me their names. I think the importance of the subject would fully justify it."

"In the interest of other sufferers I think you are correct," Dr. Gunn finally observed, after a moment's thought. "Both the lady and her husband are so rejoiced, so grateful, over her recovery that I know she is only too glad to have others hear of it. The lady is Mrs. Eames, wife of the well known costumeur. She was not only restored, but is in perfect health to-day."

I thanked the doctor for his courteous reception, for the valuable information imparted, and I felt assured that his generous and humane nature will prevent him from feeling other than glad at seeing this interview published for the benefit of suffering humanity.
